[Technology, Information Technology](#)

Children’s Internet Protection Act School’s Internet Safety Policies The need for designing and implementing ethically acceptable internet policies is a subject of great concern all around the globe. Children’s Internet Protection Act has played a significant role in ensuring that children are enlightened on the ethical use of the internet. To aid in achieving the aforementioned subject, Schools are expected to adhere to the following essential aspects. Essentially, children have to be educated on the right way in interacting over the internet. Generally, is oriented towards enlightening children on online wellbeing.

Legal features expected in a commercial e-mail

It is vital to note that protection in commercial e-mails is a key subject in ensuring integrity for an organization. Speedy advancements in technology has resulted into the predicament of spamming on e-mails. On this basis, The CAN-SPAM Act of 2003 has put into consideration a number of principles on the sending of commercial e-mails. That is, senders will be considered to be practicing legal activities provided, email headers contain non-misleading information and have a valid sender address. Email subject should not have deceiving information and must have a typical return email address. Finally and yet importantly, the e-mail should have not been sent after recipient opted out communication with sender.
