Not only are the victims effects negatively affected but so are to bullies themselves. Kids who bully others can also engage in violent and other risky behaviors into adulthood. Bullying can happen anywhere from cities, schools, or at home.

Why do young people bully each other? I think bullies can change because they are not born that way. I think that if they are treated better and respected more they can change. Most bullies bully others because they are treated badly or they have been bullied before by peers, family members or in school. I have a friend that used to bully others, but I told him to stop because I know he wouldn't like to be bullied. I kind of treated him like he treated others so he can feel what it feels like to be bullied.

I guess you could say I was bullying him, but it was to help others and himself because he could have done something worst than bullying. It could
