Obama exhibits a variety of leadership styles. One such leadership style is the transformational-charismatic approach. As a role model one can examine the means by which Obama is able to influence individuals and attempt to model their behavior after these qualities. Another important aspect of Obama's leadership and position as a role model is his cross-cultural background. In these regards, he is able to appeal to a wide variety of individuals. Another important factor in terms of Barack Obama's leadership is the extensive education he received. Much discussion has gone into the nature of African-American leadership within society. The discussion has centered on the lack of intellectual or educated leaders, leaving

children role models of only sports stars or entertainment personalities. With the election of Barack Obama as the first African-American President his position as a role model within the black community through his substantial education and positive values was realized. In great regards, one sees Obama within this context of leadership and youth that previously lacked a strong role model from their ethnic background are now able to advance with this individual in mind.
