

Chapter 9 drivers ed

**ASSIGN
BUSTER**

The most commonly practiced and dangerous driving behavior is:

Speeding
Text messaging or surfing the internet on your wireless device

while driving: Takes your hands off the wheel and your eyes off the

road
Multi-tasking while driving means: Performing multiple functions in the

vehicle at the same time
If you have passengers that are infants or children,

make sure: They are fed, watered, and dry before you belt them into their

seats and begin your trip
Fatigue has many of the same dangerous effects as:

Drinking alcohol
To manage risk when driving: It is essential that you remain

alert to conditions of objects that can increase levels of risk
The percentage

of distracted drivers operating their vehicles on roadways at any given time

may be as high as: 50 percent
The definition of a driving distraction is: Any

activity that takes your mind off your driving or your eyes off the road
