What was a worse, 3rd party have in the past brought rational belongings violation claims against EDU based on the content of the books. For illustration, in January 2001, the Graduate Management Admission Council ( GMAC ) , and Educational Testing Service ( ETS ) , filed three separate cases against New Oriental in the Beijing No. 1 Intermediate People 's Court, avering that they had violated the right of first publications and hallmarks associating to the GMAT trial owned by GMAC and associating to the GRE and TOEFL trials owned by ETS by doubling, selling and administering their trial stuffs without their mandate. But a concluding judgement issued by the Beijing Higher People 's Court in December 2004 announces that EDU had non misused the hallmarks of GMAC or ETS. However, violent acquisitions and any future acquisitions expose EDU to possible hazards, including concern civilization, hazards associated with the recreation of resources from bing concerns, trouble in successfully

incorporating the acquired concerns, loss in good will by inability to bring forth sufficient gross to countervail the costs and disbursements of acquisitions.

On the other hand, from the interior of company, New Oriental school had been employing a figure of new instructors late, most of their ages are really immature, there are even some merely graduated from college. People start to worry about EDU's learning public presentation degree. The general inquiries are do they have ability to catch up new construct of instruction, do they every bit skillful even in different location, do they have the same feeling on duty as a senior instructors do. The trials' content is altering overtime, can EDU offer much closer acquisition stuffs to pupils. From the exterior of the company, more and more rivals entered this market in China. For case, EDU face countrywide competition for their IELTS readying classes from Global IELTS School, which offers IELTS readying classes in many metropoliss in China. They face regional competition for English for kids plan from several rivals that focus on kids's English linguistic communication preparation in specific parts, including English First. They face competition for "Elite English" plan chiefly from Wall Street Institute and English First, both of which offer English linguistic communication preparation classes for grownups in many metropoliss.
