Of course in every good life, there is still some bad moments. In 1957 he fell severely sick of pneumonia when he was 21. Because of that, he had to get part of his right lung removed. His life is still significant to Catholics all around the world to this day. First of all, he is the Pope currently so he is constantly making changes and doing things to help Catholics and also other people as well.

He also helps with the homeless and the poor. To this day he tenure has been characterized by humility and outspoken. He was also elected the person of the year by Time Magazine. (Pope Francis Bio.” Pope Francis Visit 2015. N.

p., n. d. Web. 28 Feb.

2017.) Pope Francis graduated from a school as a chemical technician before beginning to train at the Diocesan Seminary of Villa Devoto. He entered the novitiate of the Society of Jesus in March of 1958. Pope Francis is still significant and respected to this day. Just in 2014/2015, he continued his path of deep engagement with both political and environmental conflicts around the world. He speaks out about Global warming, the misuse of political and military power and other relevant things.

Pope Francis continues his path of helping and leader others to this day. Throughout all his hate and all his disrespect as a human being, he still decides to help Catholics in their religious life.
