Hard to accept what happened to my mother but I want to fulfill my promises to my mom that even she's gone, I can make it. From that after graduation I decided to stay in our Family house in San Juan, San Narciso Zambales because, I don't want to stay in our house it reminds me a lot of my mother. I'm just visiting my father every weekends.

My friends in elementary still my friends in high school. I remember when I was in elementary I think I was in grade one(1) that time. My mother told me that I need to move to the other room, I need to be alone the other room,

because my mother told me that I was a big boy already, that's why I need to move to the other room. That room was for my brother, but since he got married they build their own house that why the room is vacant, that's why my mom decided that the room is for me. Year 2001 when my brother nephew came out that is JP. Called me " Tito Nikke" jp was the first angel came to our family, I still remember that I take good care of my nephew even in a small thing because I'm just a kid that time, when his mom washing their clothes or cooking I'm the one taking good care of the baby. That time I am in grade 1. My mother always dropping me by in the school just to make sure that I m safe, and after school she always picking up, I feel that my mother loves me a lot. Because she supported all my needs. She supports all my activities in school. I joined the drum and lyre group in our school. Even when there is competition in other school she always go with me.

The graduation month in my whole Elementary are memorable, because we all exited and with emotional feelings because we are already in high school stage. We miss all of them and the memorable we experience since our elementary life. Before the graduation we practice our farewell song. Before that our teacher ask for us to search about the farewell song we need to present in graduation day. Then I question my ate to help me to search different farewell songs. She search in the internet and she got the lyrics.

The day of submission of the assignment, there are many different farewell songs. But my teacher pick only two or three songs. Then we practice that songs, but I'm can't know already the songs. Then we have two weeks practices before the graduation. While practicing our farewell songs we plan

a summer jam or picnic after our graduation. My classmate contributed herself for our transportation. I contribute one dish, then I suggest to my classmates to contribute some dish and etc. Then already done our planning we plan the destination.

This is the big day we celebrate in Elementary, this is the happy moment. In the morning we go to the church to have our baccalaureate mass in San Sebastian Catholic Church town of San Narciso Zambales. We thanks to God to his good spirit, we thanks our experience in Elementary and guide us in the High School stage. Then in the afternoon this is the time we farewell march in the school. The graduation night we celebrate the graduation in our barangay auditorium, in the reason of our school is evaluating the rooms and the stage. This is the happy moment of an student and the parent. But, since my mother pass away my father and my auntie is my parent in that night. But I'm happy that night because all of my family are in there.

I'm already a high school student. Since I'm deciding where school I'm enroll. My brother said in the mmc(Magsaysay Memorial College) then I request to my ate to come with me to inquire in that school. In a few days I'm request to enroll in Magsaysay Memorial College. My first choice is in the Zambales Academy, because my mother graduated at Zambales Academy. But I choice Magsaysay Memorial College because of the tuition its chafer price even the Zambales Academy. My friend tell me that Magsaysay Memorial College has many opportunities and have a advance lesson.
