

# Come to my school

Business

It's your 8th grade year, and you will soon be graduating and going to high school. Some of you still aren't sure which high school to go, but this is the place for you. There are so many different sports at here from swimming in the pool to playing tennis on the courts. Trying out for a sport will help you meet new people in school because there are so many students you can't meet them all. For sports you have to keep your grades up.

It shouldn't be too hard to keep your grades because if you ever need help the teachers are always there to stay after with you for extra help. If you join clubs, some of them take trips too. For example, the Spanish Club goes to a Spanish restaurant to learn more about the different food they eat in different countries. You will make a lot of new friends and have a lot of fun at our dances and field trips during the school year. For some school dances you can buy another ticket to bring only a guest, your date or even your friend from another school. We have a lot of educational and fun trips during the year.

The freshmen have many different trips to pick from; they can go to Washington D. C or to Philadelphia. In addition they even have and even more places to choose from. High school is like a roller coaster. It has its ups and downs, but the experience is not like anything else. You will meet some of the people whom you will have in your life forever, and that's a greatest bond you can have with somebody.

Choose my school because you won't regret making us to be your second home.
