

Adolf hitler rise to power assignment

[History](#)

The Holocaust was a very devastating time in history. It was the time where no one was safe in the east. The Germans would pull you away from your family. If you fell under four categories which I will explain later. They would make you do very physical labor for free, and feed you bread with some soup. If you are interested in learning more about the Holocaust, keep on reading my essay. The Nazis were a ruthless breed of soldiers. They were under command by their leader Adolf Hitler. The Holocaust killed off 11,000,000 million innocent clansmen. 000,000 of the innocent. He killed the Jewish people because he used them as a scapegoat. He blamed them for the economy being bad. He said they were the reason that they lost World War One. He killed Jehovah witnesses because he did not like the fact that they did not salute the flag or join the army. They did not do either because it was against religious beliefs. He killed off the Gypsies because they did not join his army, but they did not join his army for the reason of they don't have a country/ homeland.

So why should they fight for a guy that they do not agree with? So what they did was capture people of this race or religion and put them in concentration camps. The concentration camp is where they were put to do slave work. They would only keep people worth of value. Such as tailor, shoemaker, and craftsmen. If you could not do those trades they would kill you and have your family members cremate you. If you had gold on your tooth. They would rip that tooth out your mouth. Without invocation.

If you had anything of value you lost it once you came there and they sold it. These Nazis were ruthless not one bit of empathy or remorse. If you tried to escape you would be killed on the spot. The sad thing is. There wasn't one

concentration camp. There were tons of concentration camps. And at all of these the same things would happen. If you made it to the end you definitely have a better understanding of what these innocent beings were put through in the holocaust. I hope you enjoyed my essay and found very descriptive.
