

Istanbul essay

**ASSIGN
BUSTER**

Istanbul is the largest city in Turkey and most crowded too. Istanbul connects two different continents with a bridge, these are Asia and Europe. I chose Istanbul because it's where I live and I think it's the most beautiful city in the world. There is no such a city like Istanbul.

Istanbul connects two different continents Asia and Europe with Bosphorus bridge. You can eat your meal near the Bosphorus Bridge, it's really beautiful you can feel the wind of Bosphorus and watch the sea. Istanbul has been chosen Capital of Culture in 2012. Istanbul has a lot of districts. Popular ones are Taksim, Beyoglu, Besiktas, Kadiköy.

Taksim is a great place to visit in the morning you can see the historical side of the Taksim, There is a lot of ancient Churches and Mosques in Taksim, and you can go to shopping. Taksim has a long road with a lot of Shops where you can buy everything you want and Restaurant where you can eat everything you want. Shortly you can find everything you want at the Taksim. Nightlife in Taksim is great too. There are Night clubs, Bars, Discos which are good places to have fun.

On the other hand Istanbul has great historical side too. Istanbul has been known as Constantinople in the time of Ottoman Empire. The most popular ones are Topkapi Palace which was built in 1459 for the Sultan. Sultan-Ahmed Mosque is a historic mosque in Istanbul. The mosque is also known as the Blue Mosque as too. Because for the blue tiles adorning the walls of its interior. This mosque is special because Sultan Ahmed Mosque got (six) Minarets which are great Architect.

I would recommend this city to anyone who is able to visit Istanbul. Istanbul is best city for ones who love history and fun. A lot of activites can done, for example eating fish at the Boshphorus near the sea.
