The Vedantic View Of Karma All work/Karma to manifest divinity, hence these must be pure, good, honest and sincere. Indian philosophy also teaches to perform every work without having any attachment to result, because results do not fall under the jurisdiction of a doer. Such thinking and understanding will change the whole attitude. Now the results will become a PRASAD-gratitude ??? coming from the God himself. You can now accept the result with open mind without apprehensions-just as you accept members into Karma Yoga. Perfection In Work:

Bhagwad Gita emphasizes on while doing your present duty we should use our judgment & perform with utmost concentration. Do work without expecting what will be the result. " Do the works for the sake of your organization result will follow automatically" ? One has right to work & do not bother about results. Do not get attached to fruits of work. " Ma Phaleshu Kadachin" Work should be treated like worship KARMANY EVADHIKARAS TE MA PHALESU KADACHANA MA KARMA-PHALA-HETUR BHUR MA TE SANGO STV AKARMANI ? Swadharma Doing one's work with devotion

It should lead to well-being of all other members of the society While doing work take care of others also. 3 idiots Never Try To Be Successful ?? Success is the bye-product. ?? Excellence always creates success. So, never run after the success, let it happen automatically in the life. Team Spirit: Treat work as YAJNA ??? together i. e. T- Together E- Everyone, A- Achieves, M- More.

Nobody can encourage us more than our self. " Work should be worship". If we love the work we do it will bring happiness & effectiveness. Do what you love to do a& love what you are doing" 3 idiots Passion Leads To Excellence When your hobby becomes your profession and passion becomes your profession. You will be able to lead up to excellence in the life. Satisfaction, pleasure, joy and love will be the outcome of following passion. Following your passion for years, you will surely become something one day. Ends Do Not Justify Means: Process to achieve ends what you earn does not tell how you earn. While earning a profit a business man should be careful that he follows the ethics & does not harm to the rights to stakeholders.

Fine Blending Between Spiritualism & Materialism ??? India maintains a balance between both spiritualism & materialism it emphasizes one can earn profit, make money but not at the cost of others. Business should be managed ethically fulfilling the responsibilities to all the stakeholders who are directly or indirectly associated with business & who are part of the society. ??? The state must come before the company, and the company before the self. ??? The Indian philosophy urges managers and individuals to perform work with the spirit of Yajna (sacrifice). Sacrificing the minor gains for the welfare and benefit of the society at large. Corporate-pepsi case Swadharma ??? It should lead to well-being of all other members of the

Yagna spirit- Welfare for all: “ ATMANO MOKHARTH JAGAT HITAY CHA” “ Serve your personal interest but do not forget others” “ Bahujana sukhaya bahujana hitayacha” ‘ The welfare of the many and the happiness of the many’. 1) Lagaan Bhuvan did not dream for himself, he dreamt for the good of his village folk. Not once did this man of character put his self-interest before that of others.

It was this that made him win the support of his villagers... after some initial resistance. Dignity of Work: Dignity of work is much important as far as Indian ethos is concerned. No work is great or small. Each work whether it is a peon’s job or General Manager’s job, is of equal importance, worthy & honorable. It lays stress on “ Sarvabhutastha Atmanam Sarvabhutani Chatmani” which means to treat all as equals Munna bhai Family Oriented ??? The value system of India is oriented towards family even grownups while taking any decisions consults with seniors. Baghbaan Outsource to others sholay Effective communication) 3 idiots Importance Of One Word In Communication If communication dies, everything dies. Each word has impact and value in communication.
