

Toponym sweet toponym

[Science](#), [Geography](#)

TOPONYM ASSIGNMENT What is your county and of legal residence? If you are an international select Kentucky, Warren County, and Bowling Green as your residence.)

The county of Dallas, state of Texas

2. What is your county seat town or hometown (pick one) and how did it get its name? (This should be at least one paragraph--at least 10 lines).

Dallas, the birthplace of the name of the town of Dallas is darkened and obliges an extensive demonstration. We have no essential confirmation from John Neely Bryan, the author of the town, demonstrating precisely how he picked the name "Dallas." Bryan (1810-1877), a broker, rancher, attorney, and area theorist, is decently reported in lawful and business records however left few particular compositions. Frank M. Cockrell, an early pioneer who knew Bryan, reviewed that he declared "the town was named for my companion Dallas". There has been much theory about precisely who that individual named Dallas was. Cockrell accepted that it was George Mifflin Dallas, VP of the United States throughout the organization of President James K. Polk. Dallas County is for the most part accepted to have been named for George Mifflin Dallas since Polk County, named for President Polk, was made on March 30, 1846, that day that Dallas County was made. There is no proof, nonetheless, that Bryan ever knew George Mifflin Dallas. Likewise, the town of Dallas bore that name no less than three prior years the district was made. George Mifflin Dallas had no reported enthusiasm toward Texas until he made a cool reference favoring Texas statehood in a 1844 letter to a congressperson from Mississippi--once more, after the town of Dallas, Texas was named.

3. Create a map of the United States showing the distribution of towns with

the same name as your county seat town. There are many web sites that allow

you to search place names. One that I recommend is:

<http://geonames.usgs.gov/pls/gnispublic/f?p=139:1:1236369364880273>

* Place a dot on the map to represent each town with the same name.

* Give the map a title

* include a key for the map

* be prepared to discuss the toponym pattern that developed on the map and

explain the pattern (Hint: think about the five themes in cultural geography!).

4. Look at a map of your home county. In your opinion, what is the most unusual place name in your county (other than the county seat)? How did it get its name? Your answer should be a full paragraph, at least 10 lines

Eules. Eules is named after Elisha Adam Eules, a local of Tennessee who moved to Texas in 1867 and later purchased 170 sections of land (0.69 km²) of arrive on the current convergence of North Main St. also West Eules Boulevard.[5] Elisha began a cotton gin and a group focus on his property, and rapidly turned into a noticeable figure in addition to different pioneers. From the census of of 2000, there were 46,005 individuals, 19,218 family units, and 11,626 families living in the city. The populace thickness was 2,828.3 individuals for every square mile (1,091.7/km²). There were 20,136 lodging units at a normal thickness of 1,237.9 for every square mile (477.8/km²). The racial cosmetics of the city was 75.52% White, 6.49% African American, 0.64% Native American, 7.15% Asian, 1.86% Pacific Islander, 5.
