

Portfolio case essay sample

**ASSIGN
BUSTER**

It consist of 4 separate assignments (1 pagers) and appears in the learning units as section A, B, C and D of the Portfolio. They count 20% of the final mark and has a subminimum of 50% to pass.

Students must hand in the Portfolio as ONE UNIT or FOLDER.

- 1) This folder will consist of Portfolio A (Word), Portfolio B (Word), Portfolio C (PowerPoint) and Portfolio D (Option of Word/PowerPoint).
- 2) All 4 sections of your work should be saved in this folder in the proper file format.
- 3) Zip/compress the folder in order to upload properly to the assignment tab.

Mr B MuteweyePortfolio Section D: Ethics, Copyright and IPR in Computer labs
In the normal course of their teaching duties, several lecturers have reported finding pirated software improperly installed on the computers in the computer labs. Lecturers also found that students have copied and pasted materials from various Internet resources into their own assignments and reproduced them as if they were their own. This, they find, is a common problem among their students. Before taking a decision on what should be done, lecturers asks you, as students, for your inputs to decision-making. Submit your answers to the following questions in either a one page Word document (aim for around 500 words) or a PowerPoint presentation of no more than 8 slides in the Assignments tool: What are the ethical and IPR issues that the faculty are confronted with? What are the steps that the faculty should take to address the ethical and IPR issues?
