London is the capital of England and the United Kingdom. It is considered to be one of the largest metropolitan area and largest urban zone in the United Kingdom. As known London is famous for its economic growth i. e it is one of the largest finance centre along with New York. It is one of the global leading economies with its growth in almost every sector right from art, entertainment, education and fashion to tourism and transportation.

However tourism has been one of the trademarks for London. It earns its maximum revenue through tourism which adds on to increasing the GDP of the country. Coming to achievements, London has the world's largest airport system and it has been successfully hosted Olympics thrice in comparison to other leading economies.

Not only the geographic and economic factors, what makes London unique the social and cultural factors. It a hub of various cultures and people with about more than 300 languages spoken within its boundary.

It has a monarchy system of government which is leaded by the King or Queen and his traces way back from centuries.

British Monarchy System (History and Background)

The British Monarchy System is also known as the Constitutional Monarchy System. The term "Monarch" basically refers to the king or queen. Queen Elizabeth II became monarch on 6 February 1952. The role of the monarch is continued as the members of the family continue to be the monarch and undertake various social, economic, representative responsibilities. The genesis of constitutional monarchy in Britain can be traced way long back in centuries. Before the 17th century, the British Monarchy could make decisions as they had the right to execute i. e make or pass legislation. This is when they were also named as executive monarchs. The monarchy system now is no more executive and has become more lawful where the monarch has the right to confer honours and appoint ministers. .

The major role that a monarch plays is in the British Armed Forces where the monarch is the monarch is the commander. There is no doubt about the fact that the authority and rights to rule and govern the country is still through the monarch but the powers can be used within the laws which have been passed in the Parliament which should maintain the unity of the country and set some standards.

It is from the Scottish Kings and others that the monarchy system traces its genesis from. Way back in the 10th Century, the kingdom of England and Scotland had urbanized from the poor kingdoms of early medieval Britain.

In the year 1603, James I who actually was a Scottish King James VI, both England and Scotland were ruled by a single monarch. The monarch here was very powerful and could take all the decisions. However, between 1649 to 1660, the practice of monarchy was broken by the Commonwealth of England which was followed by the Second World War.

One of the major decision that was taken was that the Roman Catholics or the ones who marry the Roman Catholics would not be included in the series of owing the throne. However, it was in 1707 when England and Scotland came together to join the United Kingdom which was then referred to a https://assignbuster.com/the-british-monarchy-system-history-essay/ Kingdom of Great Britain. With Ireland joining, it was now named as the United Kingdom of Great Britain in the year 1801.

However, post the Second World War, a large majority of British boundaries became independent, which indicated that the empire was coming to an end. Thus, it was then that George VI and his descendant, Elizabeth II, took the title Head of the Commonwealth as a icon of the free union of its selfgoverning member states.

The Commonwealth does not include the monarchies alone. It also considers the republic. In 2012, the 15 Commonwealth countries share the same person as their monarch as the United Kingdom. The British Monarchy is frequently still engaged in orientation to the person and institution shared amongst all fifteen of the other Commonwealth countries, and to the discrete monarchies within each of these self-governing countries, often at variance with the different, specific, and official countrywide titles for each jurisdiction.

The Role Played by the Monarch in the Development and Growth

The most important role that a monarch plays is that it serves as the Head of the Nation.

The Queen undertakes legal and emblematic duties which have developed over one thousand years of history as the Head of the State.

There are a series of formal duties that The Queen performs, right from playing an important role in the States functioning and growth to day to day

activities like Open the Parliament, Approve the orders in the council, Sign the several acts of the Parliament and conduct meetings with the Prime Minster.

However, The Queen acts as a representative of the United Kingdom to the rest of the world.

The Queen represents the country as the symbol of unity.

The Queen meets various personnel's right from the foreign ambassadors to commissioners who come to England also makes visits to other countries where The Queen represents to support social and economic relations.

The Queen fulfills various social and cultural functions as the Head of the Nation.

The various social roles that have leaded to the growth and prosperity of the country range right from providing stability and continuity to the nation by acting as a national identity, to recognizing and awarding achievements.

With the developed relationships with the devolved assemblies in Scotland and Wales, Queen's unifying role as a sovereign can be noticed.

The Queen has always helped the people of the country and encouraged public and voluntary services.

Impact of British Monarchy System

Permanence and stability:

The British Monarchy System has been successful in maintain stability in the economy. Although there has been a shift in the political environment from https://assignbuster.com/the-british-monarchy-system-history-essay/ left to right but The Queen has always been there and supported the people and has a safe hand on the wheel of state.

Neutrality:

As we know London is a hub of people with diverse cultural and educational background it is very difficult to sustain peace among people of the group. The Queen is neutral on giving any views on politics and the changing government policy. This makes her an perfect figurehead to present to the world.

The Queen with her neutral nature promotes good relations with other countries whose leaders might be the complete opposite of the current UK government.

Revenue Generation through Tourism:

One of the major impacts of the British Monarchy today is that it brings in a lot of income from tourism. Thousands of tourists every year visit the royal palaces and enjoy the spectacle of the changing of the protector in London.

Cost benefit:

Though this statement is very controversial as to whether the monarchy system is a cost advantage or disadvantage to the nation, there are many view supporting it. This is because they pay a heavy amount of tax and the Royals have to pay tax on their private income.

Controversies/Critics relating to British Monarchy System 2012

Views Supporting the Monarchy System

Views Against the Monarchy System

Monarchy represents permanence, firmness and moral values.

The Queen is just a figurehead and has very less significance today in the modern society.

There is a sense of prehistoric link with the crown and heritage.

It is a matter of history and should be confined to the past.

The Queen is the symbol of national unity with neutral views and impartiality.

It is a leftover which should have been abolished centuries ago.

The Monarch is free from political biasness and influences.

They believe in self- importance and have more than what they actually need.

The Queen is such a personality symbol that meeting her would be an honor unlike meeting a president of the country.

The royal family is over honored and does not give opportunities to others to be a part of the head of the nation.

It is far better than democracy as, in the monarchy system people are given more care and support.

https://assignbuster.com/the-british-monarchy-system-history-essay/

It contrasts the meaning of democracy. Democracy is what the modern society wants.

However, there can be no conclusions drawn as to whether a Monarchy System is good today also or not. People have their own views and opinions regarding the British Monarchy System.
