College is important today because? (New technologies are changing), (It provides earning power), (It prepares citizens for leadership)All of the above (New technologies are changing), (It provides earning power), (It prepares citizens for leadership)Because of new technologies and the information explosion: (Few people can support themselves adequately without higher education)Both A and C (Few people can support themselves adequately without higher education) ONACA 2, 3, 13 SPECIFICALLY FOR YOUFOR ONLY\$13. 90/PAGEOrder Now(Most graduates are earning their living by creating, managing, and using information)A college degree " levels the playing field" because it: Both A and B(Equalizes differences that people have)(Provides the opportunity to be evaluated on merit)Critical thinking means to: Look for evidence before forming a personal opinionThe most important skill you'll need to learn in college is how to: Keep learning throughout your lifeCollege can enrich your life by allowing you to: Both A and B(Experience diversity)(Clarify your beliefs and values)When comparing college graduates with non-graduates, college graduates tend to: Make more moneyCollege is different than high school because: Your college classes may have a lot more students in themWhat challenge would an adult and returning student face that an eighteen-year-old student would not? They may experience a lack of freedomTo build a clearer sense of purpose for being in college: Identify students who have the same major and career interestsIn taking control of your life remember: To spend time doing the things you value mostTwo of the most cited differences between high school and college are increased autonomy and: Greater responsibilityA person may procrastinate becauseBoth A and B(They fear success)(They are bored)Setting priorities while in college means: All of the above(Balancing

your academic schedule with the rest of your life)(Finding time of yourself)
(Finding time for social activities)For each hour spent in class, you should
schedule ____ hour(s) of study time2Recognizing what time of day or night
you are most alert and engaging is learning about yourBiorhythmsAn
example of using your study time wisely would beUsing your waiting time to
reviewWhat is the most important reason to be on time for classIt shows
respect for both your professor and your classmatesPromising yourself a ____ is
a good strategy for beating procrastinationRewardThe greatest challenge of
prioritizing is balancing school withWork and family obligationsYour learning
style reflectsThe way your acquire knowledgeThe following can be used to
measure and describe learning stylesAll of the above(Multiple intelligence
inventory)(Myer-Briggs Type Inventory)(Kolb Inventory)Pat is taking a history
class. The exams focus on events and dates. After each class, he draws time
lines and plots the events covered in the lecture using key words. According
to the VARK learning styles, what is Pat's Preference? VisualSally, who is pre-
med, is taking a class that involves problem solving real case studies. She
most likely enjoys the class because she isA convergerIntroverts tend tothink
before taking actionThe S/N (sensing/intuition) preference scale describes
how youAcquire informationOne weakness of someone with a thinking style
is that he or she tends toNot notice people's feelingsOne weakness of
someone with a judging style is that he or she tends toMake decisions with
insufficient dataOne strength of someone with a perceiving style is that he or
shels flexiblethe theory of multiple intelligences is based on the premise that
human intelligenceCan be measured based on eight different
intelligencesCritical thinking is consideredThoughtful considerationArguably,
the most important skill you will acquire in college is: The ability and

confidence to think for yourself A critical thinker possesses all of the following EXCEPT The ability to create a simplistic analysis of a complex issue In college, the word argument refers to A collection of reasons and information that form logical support of some idea Which of the following is NOT a question a good critical thinker would ask? Did Speaker X move me to feeling strongly about the issue? A good job candidate will have which of the following abilities, characteristics of critical thinking? All of the above (Judgement skills) (Collaboration skills) (Analytical skills) In a liberal education, students are taught to investigate A and B (All sides of a question) (All possible solutions to a problem) The most creative idea starts with Brainstorming Which of the following statements will NOT help you to think critically? Appeal to authority One study found that students who participated in collaborative learning performed significantly better on a test requiring critical thinking than did Students who studied individually Most forgetting takes place within ____ hour(s) of seeing or hearing something? 24 An engaged learner would do all EXCEPT which of the following? Write down everything the instructor says Which note-taking method is NOT recommended for taking notes during a lecture? Paragraph Format During lecture, you should focus on all of the following EXCEPT Facts and figures Which of the following is most important when it comes to effective note-taking? Identifying the main points When taking notes in science and mathematics courses, which should you NOT do? Put what the instructor says in your words Listening in class is like None of the above (listening to a TV program) (listening to a friend) (listening to a speaker at a meeting) One method for organizing notes is called Cornell Format When using technology to take notes, remember that Laptops are often poor tools for taking notes

during class To really learn, you must All of the above (talk about what you are learning) (write about what you are learning) (relate what you are learning to past experiences) The first step in 'attacking' a chapter in a text is Previewing The first thing you should read when previewing a reading assignment is The chapter title Developing a visual guide to a chapter is known as Mapping Dividing terms on a list into groups of five, seven, or nine is known as Chunking Flash cards are a great alternative to mapping for what kind of learners? Interactively In most sciences, it is best to Outline chapters ___ is an example of a social science course History ___ is an example of a humanities course Literature

Tori has been reading her textbooks but doesn't feel like she is understanding what she is reading. She wants to try to use highlighting as a method to increase her comprehension. What should Tori do as she reads? Both A and C (Highlight everything that looks important) (Read before she highlights) College is about deep learning: understanding the ___ behind the details Why and How A good study strategy includes Collaborating with others Long term memory is NOT Mapping When you truly comprehend what you learn, you will be able to: All of the above (Place names, dates, and specific facts in context) (Exercise critical thinking abilities) (Have a deep understanding of the course material) The storage capacity of your memory is Unlimited Which of the following is a helpful tool in preparing for an essay test? Summary To increase understanding and remembering, you should do which of the following? Both A and B (Get the big picture) (Over-learn the material) Which is not a mnemonic to aid memory? Aural The text recommends that you use a PDA as a handy backup Learning piano sharps with the phrase 'Francis can go down and eat bread' is a mnemonic technique called a(n) Acrostic

who takes another person's ideas or work and passes it off as their own
