

Workshop summary assignment

**ASSIGN
BUSTER**

What You Learned Save this worksheet to your computer with the filename

Complete the Classroom Student Workshop Follow-up Survey at the following

link: [http://www. Surveying's. Com/so/1979051 /Student-End -of-workshop-](http://www.Surveying's.Com/so/1979051/Student-End-of-workshop-Survey)

Survey Complete the table by doing the following: Fill in the table by adding

your answers to each question. Submit the completed worksheet as an

attachment via the Assignment tab. Questions About What You Learned Your

Answers What are the most important concepts or processes you learned in

this workshop?

The most important thing learned in this workshop was the new nationalities

of the online classroom and the electronic syllabus, Both are very important

to me as return back to online classes. Knowing how to use the different

functionalities will be beneficial and help me to stay on track t get all my

assignments completed. The discussions believe will also be very important

for me and will enhance my learning experience. How will you apply these

concepts in your educational, personal, or professional pursuits? Will use

classroom discussions to glean from others vivo may have more

experiences, and to ass id value to our discussions.

I feel it will help me to better comprehend the material and share What may

also knobbier able to hold discussions With my different classmates will help

me to better communicate in my personal and professional life as well. W.

What Other thoughts and observations would you like to add? Have found

the learning team assignment section to be helpful as well. While am not a

fan of working in learning teams, find it helpful to have a separate section for

that to ensure learning team assignments don't get missed amongst all the

other things.
