

# The dark knight rises – movie review

**ASSIGN  
BUSTER**

The Dark Knight Rises - Movie Review Eight years since Batman vanished into the darkness of shadows where he turned from a hero into a fugitive, being a scapegoat burden with hiding the truth of Harvey Dent to maintain justice to the city of Gotham. But everything changes with the arrival of another villain, Bane. Batman rises again with his patriotism towards Gotham, but this time it challenges his fear of his soul and lead to the epic conclusion of Bruce Wayne.

Christopher Nolan brings another, comic-inspired, breathtaking and enjoyable spectacular film to the big screen. In The Dark Knight Rises we can experience the impressiveness of the visual effects and also many new characters that adds on to the anxiety of the film. After eight years of peaceful time, crisis threatens Gotham City, Bruce Wayne jumps back into the Batmobile to fight crime once again to fulfill his believe " Gotham does not belong to the criminals and corrupts". So Batman recruits his team with Mr.

Fox (Morgan Freeman), equivalent to Bond's Q and Commissioner Gordon (Gary Oldman); also with an eager orphaned cop (Joseph Gordon-Levitt), an attractive cat burglar (Anne Hathaway), and a violent masked villain (Tom Hardy). Nolan used many actors from his previous blockbuster, Inception; this was a good choice since they were comfortable with Nolan's directing style and his film dramatic tones. The Catwomen in this film was a very pleasant surprise that created a more exhilarating atmosphere at some scenes.

She can fight, steal and also very funny, but most importantly she impacts Bruce Wayne and the plot a lot. Bane, the new villain with a mask and a

voice like the Darth Vader in the Star Wars, who is violent, menacing with terror and thought he was the liberator of the city (actually he was trying to destroy it). The choice of this character is perfect since we can feel fear from not just his physical strong body but also his emotions and actions as well.

He is strong and muscular, we can see in the film he doesn't need any weapons, yet he simply throwing cops like a ball and killing them by suffocate them with only a hand. His eyes express violence and terror to audience. The special effects and the visual effects create a very realistic and exciting scene that we can immerse into it. There were brilliant pictures of Gotham city's in sky view during Gotham was at melt down I thought that it's real with the bridges and the sewage been destroyed, especially during the demolition of the football game since Nolan actually used the real football field at Pittsburgh.

Another spectacular scene was during the hijacking scene when the small CIA jet was being hijacked by a bigger one atop. We can see how the small jet being destroyed and also the " acrobatics" of the soldiers and maneuver Bane during the hijack. The Dark Knight Rises is an exciting, breathtaking and creative film with gorgeous action scenes and impressive dialogue and expressions within characters that is well worth a few hours of your time.
