Music Entertainment and Guest Speakers Music Bands and Singers

Limelight Band Dance Band Dallas, TX Limelight is guaranteed to make any event unforgettable. Limelight has entertained audiences from all over with their high-energy approach and style. Whether performing at a corporate, special event or festival; Limelight knows how to bring a party to life and the crowd to their feet. This ten-piece party band provides a musical range that spans decades of standards and classics to the current hits of today, taking your event to the next level. Limelight has quickly become one of the most sought after party bands nationwide and CEO's and event planners from around the country have paid the band the highest compliment by inviting them back to their annual events time and time again.

Red Leather Cover Band Dallas, TX Red Leather is an amazing party band. They put on a phenomenal show performed by amazing musicians. Everyone can dance to the music as they pull out the tunes from great hits of the 80's all the way to today. Overall, they are "nothin but a good time."

Sarah Sellers (Singer) Richardson, TX Pay Range: \$500 - \$2000 per event Sarah Sellers is a unique blend of pop, soul, blues and R&B. Her captivating presence and command of the stage has taken her as far as Hollywood on Season 10 of American Idol. Aside from appearing to a worldwide television audience Sarah has recorded for top producers out of Nashville, Texas and Brazil.

Trey Houston Greenville, TX Pay Range: \$200 - \$1500 per event Trey Houston is a Texas native and a dynamic Singer/Entertainer! Trey performs as a complete One Man Show using Instrumental Music Tracks to accompany himself as he sings all of the lead vocals. This format enables Trey to be extremely versatile and allows him to perform at venues of most any kind. He is fully equipped with multiple sound systems to perform at events both large and small.

Guest Speakers

Stephen L. Mansfield, PhD, FACHE, president and CEO, Methodist Health System, North Texas Dr. Mansfield is deeply committed to Methodist's mission to improve and save lives through compassionate, quality health care. He views his leadership role as a ministry to serve people from all walks of life in a rapidly changing health care environment. He is a sought-after expert on the topics of leadership, wellness, and sustainable models of accountable care. (Dr. Stephen Mansfield is currently the new CEO of Methodist Health Systems, MHS is doing research on depression and ways of fighting it. Dr. Mansfield can inform event attendees about the programs they are running on depression, common symptoms of depression and how to fight depression.) Price: N/A

Daryl Johnston Former Dallas Cowboy fullback Participated in the studies and helped recruit other players to take part in research led by Nyaz Didehbani, PhD, from the Center for BrainHealth at the University of Texas at Dallas. The study used diffusion tensor imaging (DTI) and showed a relationship between white matter damage and depression in former football players. More specifically, of the 3 depressive symptoms that were assessed (affective, cognitive, and somatic), the researchers found that the cognitive factor was significantly correlated with concussions ($r = 0.63$; $P < .001$). (Daryl Johnston can talk to attendees of how sports injuries can lead to depression. Focus on high school students playing football and wanting to go "PRO".) Price: N/A

Dr. John Hart Medical science director at the Center for BrainHealth at the University of Texas at Dallas Findings through the research study at the Center for BrainHealth demonstrate that cognitive deficits and depression are more common in aging NFL players compared to controls. The Center for BrainHealth at The University of Texas at Dallas, a leading scientific research institute dedicated to understanding,
